

CYBER CRIME

THE UK'S 5.4 MILLION SMALL BUSINESSES ARE
COLLECTIVELY ATTACKED MORE THAN SEVEN
MILLION TIMES A YEAR

Cyber Crime, what is it?

Cyber crimes are any crimes that involve a computer and a network. In some cases, the computer may have been used in order to commit the crime, and in other cases, the computer may have been the target of the crime. Computer viruses, web stalking and identity theft are just a few examples.

Typically your employees are the weakest link in your business when it comes to cyber security

What can you do to protect yourself?

Most people become victims of this crime at one time or another, but there are ways to avoid or deal with cyber crime by protecting yourself appropriately:

- 📞 Make sure you have adequate anti-virus software for your computer
- 📞 Utilise software to encrypt important data you don't want compromised

Insurance Solutions

ABC Accountants have partnered with Movo Insurance Brokers to provide you with assistance in the area of Cyber Liability Insurance they also charge no fee on any policies taken out via them.
